We work with people worldwide and do Syncrometer testing through personal consultations and saliva testing and guide our clients through the Dr. Clark protocols. We lecture on detoxification and the Hulda Clark protocols in Toronto.

Health In-Sync was started in 1998, to help guide individuals through the Hulda Clark protocols and detoxification methods. Gloria Ertel, NTS, D.Ac, and Angelica Mark, HN, D. Ac., CT, are experienced detoxification specialists, and after working with various protocols for the healing and rejuvenation of the body, found a lot explained in the Hulda Clark program. They spent time with the late Dr. Clark, learning her methods and Syncrometer testing procedures.

In 2006 Health In-Sync acquired the Canadian division of Self Health Resource Centre from Dr. Clark’s brother Leo Regehr.

Kerrie Muschalla, CNP, joined Health In-Sync in 2009 and brings her passion for helping others to achieve optimal health.

In 2010, Health In-Sync embarked on a second healing modality, called Quantum Formulas by Healers Who Share. Similar to Dr. Clark’s “homeography”, Quantum Formulas are remedies based solely using energetic water. Our clients are experiencing fantastic results with this alternate way of healing.

Design and implementation of a personal health program, which constitutes the fundamental base to regenerate from illnesses - disease, prevent their occurrence and develop optimal levels of health and fitness. The program begins with a thorough diagnostic assessment to ascertain the causes and origins of all health problems and illnesses. The regeneration of the human being is addressed through an integrative methodology of natural health methods: food as medicine, plant medicine interventions (protocols) as an extension of medicinal food preparation, the cultivation of the human energy field (Zen Yoga, Tai Chi - Qi Gong) and the application of the psychology of creativity and human potential. The approach is an East-West / North-South integration of knowledge with emphasis in simplicity and efficacy.

For every illness there is an equation of multiple factors operating at different levels of functioning: biological, psychological and spiritual. The personal health program incorporates interventions covering all these levels of functioning. Among other interventions of Natural Biological Medicine, Dr. Clark protocols and procedures are integrated in this comprehensive multi-level personal health program. Dr. Clarjen-Arconada has accumulated over thirty years of experience and has integrated Dr. Clark protocols and procedures since she published her first book in 1995.

I have been an herbalist since 1973. I combine therapies of Dr. Hulda Clark, Dr. Virginia Livingston Wheeler, Dr. Peter Duesberg, Dr. Max Warmbrand, Dr. Balch, Jethro Kloss, Adelle Davis, and many others to help people overcome cancer, AIDS, and other chronic and critical degenerative and parasitic caused conditions.

I have found that eliminating the parasites and unnatural chemicals and then making sure the client has a supersaturated diet in essential nutrients brings about a rapid recovery in many hard to cure conditions.

I have put all my clients on parasite cleanses for about 4 years now. Every client takes a comprehensive digestive enzyme, a green product, and specific nutrients.

Please email me if you would like any more information.

Practice: The Dr. Hulda Clark research and information from Ignacio Chamorro are foundations of my work. I perform Intuitive scans, do Bioenergetics testing and Holon Healing. After taking a short medical history, I do: 1) a scan of the body. 2) Check strengths of organs and systems. 3) Identify pathogens, toxins, antigens, cancer markers, radiation, and contributing energies and emotions. 4) With the Holon Method, I work to clear and shift anything listed above. This happens swiftly and it is able to release 60-75 % of most pathogens and toxins at one time with a side effect of reducing size of tumors. With the various programs, I recommend a safe eating
and supplement program based on the work of Dr. Clark, while I practice the Holon work throughout that time. This can be done at a distance or up close.

Background: Graduate of Psychic Horizons in San Francisco and Clairvoyant Center of Hawaii. Completed Natural Medicine Studies Program for Doctor of Divinity from AIWP University. Studied Dr. Clark research, learned Syncrometer, built zappers, and drew cartoons for Dr. Clark's books. Conducting seminars and workshops in California, Hawaii and other places.

I am A Doctor of Chinese Medicine and Acupuncture here in London Ontario. Since entering the 4 year program in 1990 I was on a search for an answer to cancer. The Chinese doctors before me had cancer described as a parasite and had been at times successful with herbal mixes. These recipes are not written down, but are known to some practitioners. Over the years of looking for common denominators in the disease I came to the conclusion it must really be a parasite that was causing the cancers in tissues too weak to fight back. While camping in Algonquin Park, a cancer survivor talked to me about Dr. Clark's book. He sold me a copy and what I read made perfect sense. Dr. Clark's ability to know the exact parasite responsible has made it possible to help with cancer patients that come my way. It has been absolutely successful in all that have taken the mix. I have been able to use my skills in acupuncture and herbs to help the body heal itself and my hypnosis therapy to ease their minds. I hope to see all these things added to the treatment of cancer patients.

Dr. Solorio has over 25 years of experience and over 5 years of amalgam-free holistic dental experience.

“Our mission is to restore the health, function and well-being of our patients, using proven holistic dental techniques and biocompatible materials.

We prefer to work hand in hand with your physician to achieve the best results possible.

We can’t impose one certain philosophy upon everyone walking into our office.

We always inform the patient about the different protocols available. However, they are the ones to make the final decision on what kind of dental work they request, often in conjunction with their holistic physician.

Dr. Hulda Clark, while still living, considered our techniques and the way we practice very compatible to her protocol.”

Dr. Solorio uses dental materials that are made from resins and plastics that are supposed to be biocompatible with his patients. He does not use zirconium unless you ask him to do so.

The doctor who helped Dr. Clark with her research.

We are a very conservative practice that tries to maintain as much enamel as possible. This means that we crown only previously crowned teeth. We are willing to work with any Dr. Clark patients to do what they need and want done. Patients for the west or east coast find it less expensive to come to see us even with the costs of travel and hotel stays than to have the work done nearer home. We have seen patients from half the states and five other continents. We remove root canaled teeth, treat cavitations, and thoroughly clean tooth sockets after extractions. We have been doing this for over 20 years. My book, The Tooth Truth, is written for patients to protect themselves from dentists. It is highly recommended reading before you see dentists.
Beautiful and healthy mercury free and metal free dentistry. Cavitation removal. Pain free anxiety free sleep dentistry. Removal of toxic dental materials, important as it is, is nevertheless only one step in the process. I have a cadre of medical, nutritional and alternative health specialists with whom I work who are also familiar with Dr. Clark's therapies.

I currently follow Dr. Clark's ideas, e.g. metal-free dentistry, muscle testing for infections, materials, etc., and the dental clean-up.

The practice primarily focuses on three areas:
1. The removal and replacement of toxic materials, i.e. mercury, mixed metals, root canals, cavitations
2. Holistic, herbal treatment of periodontal disease
3. The structural (coordinated with cranial care) treatment of cranial and jaw dysfunction. Utilizing mouth splints and manual therapy (CST) to care for jaw and head pain.

In 2001 I suffered from an acute case of mercury poisoning due to the unsafe removal of a "silver" filling by my dentist. It was very difficult to find the cause of my sudden illness, because few health care professionals are aware of the symptoms.
